

## Talk by Mr Kapil Jawa and Ms Bharati Dudeja

The latest lecture of the Colloquium lecture series organized by the Department of Zoology, Deshbandhu College turned out to be an interactive session of great fascination and interest for the students. Titled “Life is a Game, Play it,” this lecture was organized by the Educational Wing of Sri Satya Sai Seva Organization (SSSSO). Mr. Kapil Jawa, Vice President at Genpact, and Ms. Bharti Dudeja were the facilitators for this lecture. They have a combined banking experience of more than 4 decades to their repertoire that spans numerous aspects. This lecture focussed on familiarising the youth with the life skills that are imperative for every individual. Rather than having an academic-centric approach, the students were encouraged to focus on their holistic development. From the meaning of life to playing it right, this lecture touched base upon several aspects. The highlights of this lecture were the games and analogies used by the facilitators to help the students realize what actually matters in life. The analogy, that we are too focussed on our cups to realize the significance of the coffee within, resonated with the entire audience. In hindsight, this interactive session was one of the best that Deshbandhu College has witnessed so far.
