ABOUT THE CONFERENCE

As we exist in a swiftly changing and turbulent world, significant developments have been made in the field of Chemical Sciences that have contributed to human well-being. Chemistry has the potential to comprehend, examine, protect and advance the environment around us. However, some of these improvements in our lives have resulted in changes to the health, environment and society, as a whole. As we strive towards a better world, its important to ensure that contributions of Chemistry, in several fields such as, green chemistry, nanoparticles, biochemistry, drug delivery, biomaterials, catalysis and many more, are realized well.

This international e-conference will feature key note addresses by renowned scientists, interactive sessions by eminent speakers and paper presentations on various themes based on health, environment and society. We hope this conference will stimulate exchange of ideas within our field about the recent advancements in the field of Chemical Sciences and also how can we shape the future of the Chemistry for the benefit of people around the world.

ABOUT DESHBANDHU COLLEGE

Deshbandhu College was established in the year 1952 by the Ministry of Rehabilitation, in the memory of Late Lala Deshbandhu Gupta - a veteran freedom fighter. Guided by the mantra "Karmanyevadhikaraste", the college has been growing exponentially over the years. Being one of oldest and the largest institutions of Delhi University, the college offers a variety of Arts, Commerce and Science courses and several other courses in disciplines like languages/literature, history, political science, economics, commerce and many more. The college caters over 5500 students every year.

The campus of Deshbandhu college, radiates with its lush green lawns and beautiful gardens extending a lot of positivity. The astounding infrastructure is just right, not only for the students, but for the dedicated teaching faculty, the hardworking non teaching and the administrative staff as well. This includes a huge library (the best in the University of Delhi), an auditorium, smart classrooms, well equipped laboratories, gymnasium, canteen, web access centre, research laboratories for various disciplines, i4 center, medical room, banking facility, a seminar hall etc.

The College also promotes numerous co-curricular activities like art and craft, theatre, photography, dance, music, fashion, debate and so on, to provide a platform for the advancement of all the young talent. We can't miss to mention about the outstanding sports, the NCC (Army, Naval and Air Force) and NSS teams of the college working tirelessly to come up with flying colors.

ABOUT UNIVERSITY OF DELHI

The University of Delhi is one of the most prominent University in India and is known for its high standards of teaching and research. The administration of the University is headed by the renowned personalities of the country, the Vice-President of India being the Chancellor of the University.

The University offers excellent educational opportunities spanning over a wide range of programmes and advanced curriculum taught by renowned faculty members. The university has faculties of arts, education, applied sciences, law, medicine, Indian medicine, mathematics, management, music and fine arts, sciences, social sciences, and technology. The University has some of the best colleges in India for science, commerce and arts streams. These colleges are not only the best in the University but are also ranked among the top colleges in the country. Besides offering a futuristic pedagogy, the University offers widespread co-curricular activities and excellent infrastructure.

The University of Delhi, has had the privilege of being the alma mater to a huge number of renowned men and women who have made their inscription in different walks of life. These include teachers to freedom fighters, scientists to politicians, linguists and poets to lawyers, educationists, to artists and sportspersons to sports administrators, Padma awardees and the list goes on.

THEMES FOR THE CONFERENCE

- Chemical Sciences and Society
- Drug Discovery and Human Health
- Homogeneous and Heterogeneous Catalysis
- Nano Sciences
- Green Chemistry
- Energy and Environment

Call for Abstract Submission

Last Date of Abstract Submission: ~~March 20, 2022~~ **Extended to March 25, 2022**
Submit **MS word file** of the extended abstract of maximum **300 words**, according to the given format.

The guidelines must be strictly followed.
